

**DRAAKON GROUP A.Ş.**  
**CLIMATE CHANGE POLICY**

As Draakon Group A.Ş., we attach special importance to combating global climate change and its impacts, as it directly affects the sectors in which we operate. In line with this approach, being aware of the steps that need to be taken and the opportunities that may arise to measure and manage climate change–related risks, actively taking part in this fight and contributing to Türkiye’s transition to a low-carbon economy are among our priorities.

With this Climate Change Policy, Draakon Group adopts the following principles as a general framework:

- Considering climate change mitigation and adaptation across all areas of activity and operations, including Draakon Group and its subsidiaries,
- Addressing climate change at all organizational levels, including the Board of Directors, and monitoring it through a multidisciplinary approach with the participation of relevant Group Companies and working groups,
- Measuring climate change–related risks and preparing strategic plans against these risks to ensure their implementation,
- Carrying out activities aimed at reducing emissions throughout the entire value chain. Within this scope; implementing energy efficiency practices and projects, increasing the share of renewable energy sources in total energy supply, and calculating greenhouse gas emissions in line with international standards and approaches,
- Setting short-, medium-, and long-term targets for the reduction of greenhouse gas emissions and sharing our performance as well as climate change–related risks and opportunities with all stakeholders in line with the principles of transparency and accountability in accordance with international standards,
- Actively contributing to the United Nations Sustainable Development Goals (SDGs) with a focus on combating climate change,

- Taking an active role in national and international efforts to combat climate change in Türkiye and worldwide by establishing collaborations and partnerships primarily with public institutions and organizations, as well as private sector companies, academics, and non-governmental organizations and supporting projects in this field,
- Raising awareness among our suppliers within our sphere of influence regarding the fight against climate change and developing joint projects.

### **Purpose of the Policy**

This policy aims to define Draakon Group's approach and commitments regarding climate change.

### **Scope of the Policy**

This policy covers all our stakeholders, including our employees, subcontractors, suppliers, visitors, and local communities.

### **Implementation of the Policy and Relevant Legislation**

This policy has been established by concretizing and regulating the rules set forth by applicable legislation and international standards within the scope of our company's practices. In the event of any inconsistency between applicable legislation, international standards and this policy, Draakon Group acknowledges that the applicable legislation shall prevail.

### **Policy Enforcement**

This policy is reviewed periodically and updated when deemed necessary. The Corporate Governance and Sustainability Directorate is responsible for updating the policy.
